Permit Desc: Permit-to-install for a semiconductor manufacturing facility including four (4) fabrication clean rooms (fabs), 28 boilers, four (4) nitrogen vaporizers, 46 emergency generators, one (1) emergency fire pump, six (6) storage silos, 125 cooling towers and roadways and parking areas. Licking County

**PUBLIC NOTICE PUBLIC HEARING**  
Issuance of Draft Air Pollution PSD  
Permit  
Intel Ohio Site

Issue Date: July 21, 2022  
Permit Number: P0132323  
Permit Type: PSD  
Facility ID: 0145000588  
Facility Location: Intersection  
Miller & Clover Valley Roads

New Albany, OH 43031

Permit/Facility Description: Permit-to-install (PTI) for a new semiconductor manufacturing facility

The Director of the Ohio Environmental Protection Agency, 50 West Town Street, Columbus, Ohio has issued a draft air pollution control Prevention of Significant Deterioration (PSD) installation permit for the listed facility. The draft permit is being issued to solicit comments from any interested party for the director to consider prior to making a final decision.

The proposed allowable emission rates of PSD pollutants from the facility in tons per year are: Nitrogen Oxides (NOx) 1,206; PM less than or equal to 10 microns (PM10) 73; PM less than or equal to 2.5 microns (PM2.5) 65; Sulfur Dioxide (SO2) 4.3; Volatile Organic Compounds (VOC) 429; Carbon Monoxide (CO) 485; Greenhouse Gas/Carbon Dioxide equivalent 1,852,957; Fluorides (excluding hydrogen fluoride) 6.8.

Air dispersion modeling was performed to show allowed emission levels will not cause or contribute to an exceedance of any National Ambient Air Quality Standard (NAAQS). The maximum air pollutant concentrations and averaging periods that are expected from this facility are the following in micrograms per cubic meter: 180.07 nitrogen dioxide 1-hour, 61.75 nitrogen dioxide annual, 27.09 PM2.5 24-hour, 8.84 PM2.5 annual, and 36.91 PM10 24-hour. Air dispersion modeling was also performed to evaluate potentially toxic compounds and passed all toxic modeling thresholds. All other pollutants were too small to model.

A public hearing on the draft air permit is scheduled for Tuesday, August 30, 2022 at the Jersey Church located at 13260 Morse Road, New Albany, OH 43054. An information session will commence at 6:00 pm followed by a public hearing to accept comments on the draft permit. A presiding officer will be present and may limit oral testimony to ensure that all parties are heard.

All interested persons are entitled to attend or be represented and give written or oral comments on the draft permit at the hearing. Written comments on the draft permit must be received by the close of the business day (5:00 pm) on Tuesday, September 6, 2022. Comments received after this date may not be considered a part of the official record. Written comments may be submitted at the hearing or sent to: Pam McCoy, Ohio EPA Central District Office, P.O. Box 1049, Columbus, Ohio 43216-1049 and pamela

.mccoy@epa.ohio.gov.

The draft permit may be obtained at: <https://epa.ohio.gov/divisions-and-offices/air-pollution-control/permitting/issued-air-permits> by clicking on "Electronic Copies of Issued Permits" and entering the permit number P0132323. Physical copies of the permit or copies of supporting records may be inspected and copied at the Ohio EPA Central District Office, 50 West Town Street, Columbus, Ohio 43215, telephone number 614-728-3898.

Persons interested in joining Ohio EPA's mailing list concerning this or similar actions may contact Paul Braun at [paul.braun@epa.ohio.gov](mailto:paul.braun@epa.ohio.gov), or 614-644-3734.

Final Issuance of Permit to Install  
Ohio Department of Natural Resource  
Facility Description: Wastewater  
ID #: 1481713

Date of Action: 07/21/2022

This final action not preceded by proposed action and is appealable to ERAC.
